

September 30 Report for Consolidated Funding Application Grants

Issue Date: April 24, 2006

Key September 30 Report

Words:

Summary: The September 30 Report, due November 7, allows local educational agencies to maximize their Title I, IV, and other Federal funds in the ePAGE Consolidated Funding Application.

Purpose of Report:

The Nevada Department of Education (NDE) asks many districts to provide expenditure information for selected programs for the period of July 1 through September 30. This information provides additional credit, where necessary, toward the carryover limitations of Titles I and IV or charges appropriate costs to the oldest funds available under many other No Child Left Behind (NCLB). If the Report does not show up on the menu it means you do not have to complete it.

Navigation:

Any local educational agency user with Update or View access to the Consolidated Funding Application will be able to view the 09/30 Report. However, ONLY the Fiscal Representative will be able to SAVE data for this report. The report will be accessible once you log in to ePAGE. A link labeled 09/30 Report will be shown in the left menu. Clicking this link will bring up the report. More detailed information is shown on the report itself.

Due Date of Report:

After November 7, local educational agencies will not be able to access the Save data function on the report.
